

Dear Prospective Intern,

We are glad you are considering Central Ohio Music Therapy, LLC for your internship experience! We aim to give you the best internship possible including a variety of populations, approaches and styles when you work with several of our highly trained therapists. Currently, you should expect this internship to last approximately 9 months depending on our contract hours that we are able to have you experience during your time with us. We know that holidays, sick time, vacations and other events sometimes interrupt the training, so it will be our aim to give you our best in the shortest amount of time possible.

Our internship starts in September. The application, required forms and other written documents are due on **December 1st**. Auditions are held sometime in December/January. We will contact you to schedule your specific audition with us. Please refer to the form "COMT Internship Audition Requirements" so you will be ready for the interview process. We will work closely with your university to ensure you receive the best possible training so you are ready to be a professional music therapist!

As an FYI, we require the following from our interns:

- Reliable ability to transport self
- Your own guitar and computer
- Strong motivation to learn
- Someone who enjoys a variety of learning experiences
- Flexibility in their work schedule

As Internship Director, you are welcome to contact me if you have questions or concerns. Please see my contact information below. Again, thank you for your interest in Central Ohio Music Therapy, LLC and keep on singing! It is good for your soul.

Cordially,

A handwritten signature in blue ink that reads "Stephanie H. Morris, MM, MT-BC" and "Neurologic Music Therapy Fellow" below it.
